

The logo features a stylized white 'M' shape on the left, composed of a vertical line and a horizontal line that curves to the right, forming a partial 'C' shape. To the right of this symbol, the text 'MEG WORLD' is written in a bold, sans-serif font, with 'MEG' in a larger size than 'WORLD'. Below 'MEG WORLD', the word 'Technologies' is written in a larger, bold, sans-serif font.

**MEG** WORLD

# ABOUT US

**MEG WORLD IT SERVICES PVT LTD** is an Information Technology and Business process outsourcing company. We help businesses with a number of our services like **Software Development, Web Development, App Development, Back-Office Services, Data processing, and Customer Service.** We support many of the fastest growing companies from start-ups to global Companies in the World. Our mission is to provide quality services at an affordable price. We help you to focus on your business and we take care of all work processes, operations, and backend services worldwide.

## OUR JOURNEY

**MEG WORLD** started as a small online grocery and daily essentials delivery service. We started as a passion project of our Founder **Mariadoss Emmanuel** in a small 100sq.ft. room in his home, his parents and siblings were the first employees of our organization.

**OCTOBER 2019**

We ventured into tech as a necessity to develop our grocery business in order to maintain our online portal and groceries app, we learned a lot and started helping out our family and friends with small tech issues, that's when one of our well-wishers **Pr. Jimmy Ford** at the dawn of the new year advised us to venture into technological services, which then developed and transformed into **MEG World IT services.**

**NOVEMBER 2020**

What started in a small 100sq.ft. room has now grown into a big organization and clients all over the world.

**JANUARY 2021**

**2022** Now we have offices in two countries.

## FORESIGHT

We started as a small family business and have had really huge and unexpected growth over the past couple years. This success didn't come easy. It came with a lot of unexpected trails and tribulations. We had a lot of learning opportunities for which we are eternally grateful. Now we are a little bit bigger of a corporation with a sizable workforce. And we are proud of our growth.

This sudden growth has given us the energy, ambition, and power to do more. We are extremely driven and hungry for more. We have bigger plans and dreams and have the hunger to get bigger than ever.

Our five-year plan consists of opening multiple office locations within our country and branching out to other overseas clients all over the world in each country. We want to be able to employ all our young and talented youth and give them a proper career path with rich and abundant opportunities. We want to grow our employee base substantially. We want to have our hands in every sector and industry and extend our services in every industry.

*Thank You!*
